

## **AMD Global Telemedicine, Inc. to Open its First European Office in Germany**

*New office will support distribution, service and support activity throughout the region. This expansion reflects the need for expanded support to a growing customer base throughout Europe.*

Chelmsford, MA, March 12, 2010 -- AMD Global Telemedicine, Inc., the worldwide leading supplier of telemedicine technology, devices, and application software for both dynamic encounters (live telemedicine) and deferred consultations, is pleased to announce the expansion of its global presence with the opening of an office in Denzlingen, Germany.

“Europe seems to be a natural fit for AMD, especially as the telemedicine market continues to grow rapidly in Europe,” stated AMD Vice President of Finance and Operations Eric Bacon. “AMD’s presence in Europe will allow AMD to handle service calls, shipping/receiving and all customer service issues in a timelier manner.”

The Denzlingen location will be the distribution, service and operations support office for all of Europe as well as serve clients in the Middle East and Africa. Establishing a European office is part of AMD’s long range strategic efforts to increase the depth and breadth of its European product and service offerings in order to drive European sales.

“This is an important expansion of our global activities and AMD is extremely excited to be on the ground in Europe,” commented AMD President Steven Normandin. “With this on-the-ground European presence, we will be better able to serve our international customer, ensuring they are getting the maximum value from their AMD deployments.”
