## PRESS RELEASE

12<sup>th</sup> November 2009

### **TYNETEC WINS TRUST HOUSING CONTRACT**

Trust Housing which was established in 1973 currently provides in excess of 2400 homes across Scotland. The not-for-profit housing association, manage their housing and services through three offices in Edinburgh, Glasgow and Arran.

Their philosophy is built upon delivering a premium service tailored to the needs of their customers and which include fundamental core values such as Service Excellence, Quality and Value for Money.

For Trust Housing the customer always comes first. Trust Housing is a Provider of Choice, Prepared for Change, Ready for Opportunities and offer Effective Communication, Leadership and Direction.

As part of their BT21CN upgrade program, Tynetec's Advent xt system has been selected as the preferred equipment to be installed in their sheltered grouped systems. 19 schemes have been awarded which include sheltered grouped systems and at home alarms.

Tynetec Business Development Manager, Aaron Longstaff said "Trust Housing" is a key organisation that provides professional care delivery to Older People in Scotland. We are extremely proud to have been given the opportunity to supply our Market Leading Advent xt product that offers simplicity of use to the user, enhanced clarity of speech and fully integrated telecare as standard. Reacting to customer requirements, we have also enhanced the product to incorporate an Advanced Inactivity Monitoring feature. Installation will be carried out by Goldshield Security, one of Tynetec's long standing Partner Installers, ensuring a professional and efficient service and offering the lowest long term cost of ownership."
